- Physiological
Our Corporate Health Achievement Award Journey
Why we applied for this recognition?

1. Use the self-assessment learning tool as a quality improvement initiative to identify gaps and opportunities for improvement.

2. Benefit from formal feedback from the ACOEM leaders to improve even more.

3. Sharpen our programs to improve employee health, safety, cost savings and productivity, whether we win or not.

4. Enhance team pride in our work if we receive national recognition.
“Practice the philosophy of continuous improvement. Get a little bit better every single day.” —Author unknown
CHAA Method

• Based on ACOEM Corporate Health Excellence – Guide to a Healthy Workplace

• Comprehensive Award in Four Areas
  – Leadership & Management
  – Healthy Workers
  – Healthy Environment
  – Healthy Organization

• Points Awarded for
  – Comprehensive & Appropriate Programs
  – Appropriate Dissemination
  – Metrics
  – Positive Trends
The Scoring Method

• The award criteria are divided into four categories.

• Each category has been divided into evaluation items (areas that should be considered in developing and deploying a comprehensive health, safety, and environmental program)

• The organization is scored based on the programs and the level of “maturity” of program(s) that the organization has described in the application.
Each Examiner evaluates each category and item:

- **How comprehensive and appropriate is the program defined?**
- **How well it is deployed across the organization (globally as appropriate)?**
- **How positive are the results (measurable outcomes)?**
- **Is there evidence of improvement trends?**

A team of Examiners determines a Consensus Score based on a dialogue against the scoring criteria utilizing their individual scoring to frame the dialogue.
Categories and Points

1.0 Leadership & Management 250
   Four areas

2.0 Healthy Workers 250
   Four areas

3.0 Healthy Environment 250
   Five areas

4.0 Healthy Organization 250

Integrating Health and Safety
Use data to learn where your company stands on workforce health and wellbeing.

1. **Assess**
   - Evaluate your program’s success and set future goals. Survey non-users to boost your results.

2. **Plan**
   - Set goals, schedule activities, and develop a communications strategy.

3. **Engage**
   - Launch and continue to promote the program to your workforce.

4. **Measure**
   - Use data to learn where your company stands on workforce health and wellbeing.
Vision: How Erickson Living defines a healthy and productive worker

- Not using tobacco, alcohol to excess, or illicit drugs
- Maintains a healthy body mass index (BMI)
- Regularly performing appropriate levels of physical activity
- Complying with recommended preventive health practices
- Has the psychological skills that enables success in highly demanding work environments
- Works in a safe and healthy work environment
- Is productive at work and is ready to respond to changes necessary to provide the very best service to your residents.
Integrated Employee Health, Safety, and Wellness at Erickson Living

- Personal health & wellness
- Work-related services & safety promotion
- Workers’ compensation care and management
- Health advocacy
Leading Health Indicators

Ten Major Public Health Issues

1. Physical activity
2. Overweight and obesity
3. Tobacco use
4. Substance abuse
5. Responsible sexual behavior
6. Mental health
7. Injury and violence
8. Environmental quality
9. Immunization
10. Access to health care
Our health plan philosophy

- Our commitment to prevention and wellness to reduce employee health risks, using quality provider networks, and providing low cost care through our Employee Health and Wellness Centers (EHWC) keeps our health plan costs lower for our communities, improves employee services to our residents, and is an important part of our total rewards package for our employees.

- We also make our health plans as affordable to employees as possible by discounting employee premiums for non-management staff and we continue to have lower employee contributions (including copays, deductibles and coinsurance) in comparison to other companies.
Integrated workers’ compensation management

- **U.S.: 1985-1992**: National health care costs increased 10% annually; workers’ comp costs increased nearly 15%.

  - Patient advocacy & customer service, preferred provider network using ‘sports medicine’ model, close follow-up, continuous dialogue between parties & injured employee, & in-house legal services to settle certain cases.
  - 73% decrease in lost time & medical claims; 54% decrease in all costs (incl. admin costs).
  - 77% decrease in temporary/total days paid.

- **Hospital of the University of PA: 1997-2002** (Green-McKenzie at al, JOEM, Vol. 44, No. 12, Dec. 2002)
  - 46% decrease in lost time mainly due to modified duty.
  - 10% decrease in total claims.
Employee Health Management Programs - Today!

- Population management
- Integrated data management and predictive modeling
- Disease management
- Health and wellness coaching
- Targeted and tailored messaging (social marketing)
- Value-based benefit design
- Incentives
- Culture of health and wellness engagement.
Our employee safety philosophy

**AWARENESS**
Be aware of the hazards around you.

How can you reduce the risk of injury on the job? Adopt an alert mentality and understand the potential dangers in your day-to-day tasks. When you act in a safe manner, we all benefit. Remember, safety begins with you.

**ACCOUNTABILITY**
Be accountable for all that you do.

How can you ensure a safe workplace? Act in a professional manner and carry out your duties according to training and company policy. If you see something unsafe, tell your manager. Remember, safety begins with you.

**ATTITUDE**
A great attitude goes far!

How can you make the workplace even safer? Know the risks and adopt a safety-first attitude. Show that you care about yourself and your co-workers by following the programs in place. Remember, safety begins with you.

FOLLOW THE 3 A’S OF WORKPLACE SAFETY:
AWARENESS. ACCOUNTABILITY. ATTITUDE.
Governance Structure for Employee Safety

Decentralized Approach
Enterprise Risk Management

Governing Body
Finance, Operations, Legal, Human Resources

PL / GL / Auto/ Property Claims
Health Risk, PIRMS, Safety/Loss Prevention
- Safety Loss Prevention Programs
- Healthcare Risk Management
- Review of incidents and trends
- Quality Risk & Safety Metrics
- Resident and Staff incident reporting (IL & Health Services)

Compliance (Legal)
- Auditing and Monitoring Program

- Policy Management
- Education and Training
- Values Line Allegations and Compliance Incidents
- Regulatory Findings

Risk Finance (Finance)
- Cost of Risk
- Evaluate Business Operations and Structure Insurance Program

Workers’ Compensation (HR)
- Lost Time / Return to Work Management and Root Causes
- Support for Large or Complicated Case Management
- Review of All Cases
Our Culture of Health and Wellness...
Greenspring Employee Health & Wellness Center

SICK CARE
First, convenient care for the following conditions and more:
- Sore throat/cold/flu
- Allergies
- High blood pressure
- Digestive problems
- Urinary tract infections
- Headache/earache
- Back or joint pain
- Menstrual cramps

HEALTH IQ
A 15 minute preventive health screening, including:
- Full cholesterol profile
- LDL, HDL and triglycerides
- Diabetes screening
- Blood pressure check
- Weight and body mass index (BMI)
- Vision screening

WELL VISIT
A 45 minute complete health exam tailored for women and men. Choose from any or all of the following services:
- Colon cancer screening if indicated
- Heart disease risk
- General health
- Physical exam

Women's Well Visit includes:
- Cervical/vaginal screening
- Mammogram referral
- Hormone screening tests

Men's Well Visit includes:
- Prostate and rectal exam

QUIT SMOKING
Easier than ever ways to quit smoking for life, including:
- Hypnosis
- Nicotine replacement therapy
- “One-to-one” support
- Latest medications

FOR EMERGENCIES
Such as chest pain, shortness of breath, passing out and deep coughs, call 911 immediately.

NEW PROGRAM OFFERINGS
- Lab draws
- Prescription renewals
- Specialist referrals
- Weight Management

WORK-RELATED CARE
Convenient care for issues relating to your job, including:
- Work-related injury
- Injury or infections exposure
- Vaccinations
- TB testing
- Physicals

TAKE CHARGE OF YOUR Well-Being
CARE | PLAN | GROW | GIVE

For hours and to make an appointment, call 703-923-3180 today, Internal callers, dial 604-3180.

Convenient, affordable care—Right where you work.

Your Employee Health and Wellness Center offers:

- Low-cost health care for all employees over age 18
- On-site services with shorter wait times and no drive
- Skilled medical professionals
- Confidentiality
- Prescriptions when appropriate
- Work-related care
All expenses are included: corporate oversight, back-office support (EMR, coding, recruitment, billing, etc.), wages for clinical staff, supplies, etc.

* Total active employees who have been to the EHWC for Elective Use in past 12 months (i.e., visits for where they could instead elect an external clinic including sick/well care, smoking cessation, Health IQ, or injury care) divided by all current employees (except students < 18 years old who are instead referred to their Pediatrician).
Customized Health Assessment

Assessment Date:

STEPS:

1. You must have your numbers checked at least every two years. For example, if you had your numbers checked in 2014 and they were normal, you do not need to retest them until 2016. If you had your numbers checked in 2014 and they were abnormal, you must have them re-checked in 2015. “Numbers You Should Know” can be obtained by visiting the nearest Employee Health and Wellness Center or by consulting with your personal health care provider.

2. Once you complete your Health Assessment, click on the Open Enrollment link at the bottom of the Assessment if:

   a. You want to make any changes to your benefit elections for the upcoming year, OR

   b. You want to continue your Flexible Spending Account (FSA). As a reminder, you MUST enroll in FSA every year to be covered by this benefit.

3. As a reminder, Peoplesoft will time out after 20 minutes of inactivity. If you do not complete your assessment within that 20-minute period your information will not be saved and you will need to begin your assessment again.

4. You may submit only one Health Assessment per day. If you need to make changes to your assessment, please return to this site tomorrow.

Numbers You Should Know

*Body Mass Index
*Blood Pressure Top
*Blood Pressure Bottom
*Blood Sugar (glucose, GLU)
*Cholesterol: HDL
*Cholesterol: LDL
*Cholesterol: Triglycerides (TRG)

Date Health Numbers were Taken: *Month *Year

Where else can you have all the support you need to not only do your job, but to be able to identify problems and then be able to provide a program to help fix the problems?

This “Ripple Effect” all started because one year it was noted that there were 12 back injuries that happened to the housekeeping department.

Managers were contacted to let them know the trend in and consulted about what we could do.
The President’s Challenge is the premier program of the President’s Council on Fitness, Sports, and Nutrition. The program helps people of all ages and abilities increase their physical activity and improve their fitness.

- One mile walk/run
- Flexibility
- Sit ups and push ups
- Biometric readings before and after (Health IQ)
- And walked every day, or did the exercise tapes
- And one step further

• The next year back injuries were down to 2!

• Together lost 148 pounds and 75 inches!!!!!! Also donated this 148 lbs. to the local food bank in your team names for the pound for pound challenge by the biggest loser producers.
Who is Health Advocate & who is eligible?

- An All-in-1 Program offering:
  - EAP+Work/Life
  - Healthcare Help
- Easy access.
- One source support for a variety of needs.
- Expert staff of health and insurance professionals, including Registered Nurses.
- Covers all employees over the age of 18, whether you have health insurance or not.
  - Including Flex and Part-Time employees.
- Spouses/domestic partners.
- Dependent children.
- Even covers parents and parents-in-laws.
What do they offer?

**Healthcare Help**

**Find the right doctors**
We’ll also locate the right hospitals, dentists and other leading healthcare providers anywhere in the country.

**Schedule appointments**
We can help expedite the earliest appointments with providers including hard-to-reach specialists and arrange treatments and tests.

**Get cost estimates**
You’ll receive estimates of common medical procedures in your area to help you make informed decisions.

**Help resolve insurance claims**
Our experts get to the bottom of your issue to assist with negotiating billing and payment arrangements.

**EAP+Work/Life**

**Licensed experts available**
Receive assistance for marital relationships, family/parenting issues, work conflicts, stress or anxiety.

**Address drug and alcohol abuse**
A professional counselor can make a referral for in-depth, long-term help.

**Eldercare and Childcare**
We can find resources including in-home care, assisted living and nursing homes, daycare and summer programs.

**Financial, Legal, Identity Theft**
We locate experts to assist with budgeting, debt management, estate planning and fraud recovery.
Erickson Living Utilization compared to Health Advocate’s book of business shows higher utilization in most major categories.

</tr>
</tbody>
</table>

Potential Savings if cost growth matched that of Health Coach Group: $293K

Additional Cost of the Health Coach group without outliers if cost growth matched Control Group: $1.1M
Chronic disease management leads to measurable results with a 59 year old diabetic with comorbidities closing care gaps related to preventative screening and chronic condition. Health Coach education led to fulfillment of cancer screenings, labs, and eye exams. The patient also progressed off of insulin dependence during the period.

30% Reduction in Prospective Risk for patient from 2012 to 2013, indicating fewer incidents caused by chronic conditions.

$12K Savings attributed to closed care gaps and elimination of insulin dependence.
Creating the Solution

From the desk of Diane Garbrick, RN

Dear Valued Employee or Family Member,

Did you know that choosing an Urgent Care Center instead of the ER for nonemergency medical care could save you time and money? Here are some important facts that you’ll find useful the next time you are faced with a medical condition that requires immediate attention but is not life-threatening.

Urgent Care Centers (like Minute Clinic and Patient First) are often open during evenings and weekends, making it convenient to see a qualified medical professional when your regular doctor’s office is closed.

You will usually get treatment more quickly at an Urgent Care Center than in an ER.

Choosing an Urgent Care Center over the ER will save you money. Under the Envision Living® Health Plan, you will be charged a $50 co-payment for visiting the ER, while Urgent Care Centers typically charge a $10, $15 or $20 co-pay, depending on your health plan. You will also experience a higher out-of-pocket expense at the ER.

Urgent Care Centers are your best choice for:
- Sore throat/cold/flu
- Ear or eye infections or other infections
- Headaches/Migraines
- Burns
- Backache
- Sprains
- Broken bones
- Cuts/stitches
- Other nonemergency medical conditions

DO NOT choose an Urgent Care Center if you experience a sudden illness or injury, such as chest pain, passing out or trouble breathing, which could have a serious life-threatening or life-threatening outcome. Call 911 or go directly to the nearest emergency room.

To find a participating Urgent Care Center in your area, just call 1-800-810-2683 or review the information on the back of this letter (see enclosed).

If you have questions or need additional information, please call me at 410-402-2330. As your Nurse Health Coach, it will be my pleasure to assist you.

Sincerely,

Choosing a convenient Urgent Care Center instead of the ER for nonemergency medical care could save you significant time and money. Here are some helpful guidelines for choosing the right path:

Use an Urgent Care Center when your medical condition is not life-threatening but does require immediate medical attention and your primary care doctor is not available. You will often get treatment more quickly than you would in a hospital ER, and your co-payment will be much less—$10, $15 or $20, depending on your health plan, instead of the $50 mandatory ER co-pay.

Go immediately to the Emergency Room for sudden illness or injury that could have a serious, life-threatening or life-threatening outcome. Prior authorization from your doctor is not needed for ER services.

For a list of participating Urgent Care Centers in your area, just call 1-800-810-2683 or visit the provider directory at cardiant.com/doctor. Click “Find a Doctor,” choose your PPO location, then choose “Urgent Care” under “Facility” and enter your zip code.

*These services may also be available from your Employee Health and Wellness Center. Call to inquire.

Visit an Urgent Care Center* for problems like:
- Sore throat/cold/flu
- Ear or eye infections or other infections
- Headaches/Migraines
- Burns
- Backache

Visit the ER instead if you experience:
- Chest pain
- Passing out
- Trouble breathing
- Bleeding that does not stop when pressure is applied
- Head injury
- Ingestion of poisons or drugs

Seeing the Results

Steering Unnecessary Emergency Department Visits to a Lower Cost Care Setting

Population Risk Management Member since 2011

- **About:** Enron Living is a national system of continuous care retirement communities spanning ten states, headquartered in Baltimore, MD. They are at risk for 4,000 covered lives under their self-insured employee population.

- **Challenge:** Enron Living saw a rising number of potentially unnecessary diagnoses being treated in the emergency department that could have been treated in a lower cost care setting.

- **Solution:** Enron Living identified the need to further educate their employee population on appropriate emergency department (ED) utilization and implemented communications campaigns targeting ED frequent users.

- **Impact:** Enron Living’s educational program has resulted in an estimated $48K in realized savings from decreased number of potentially unnecessary visits being treated in office setting or urgent care setting in next 3 months.

**CHALLENGE:** Excessive Unnecessary Emergency Department Utilization and Plan Spend

- **Medical claims data reveals opportunity:** High plan spend identified for emergency department visits and excessive utilization for potentially unnecessary visits.

- **Communication Campaign for Frequent Flyers Education:** Leveraging Enron Population Risk Management (CPRM) analytics and Advisory Board, Enron Living implemented a communications campaign educating ED frequent users on appropriate utilization of the emergency department vs. lower cost settings of care for non-emergency conditions.

**RESULTS:** Decrease in Potentially Unnecessary ED Utilization

Emergency Department vs. Urgent Care Center Utilization

Communications campaign highlighted diagnoses that were effectively treated in lower cost care settings and identified areas/availability of local urgent care services.

Low acuity emergency department visits have decreased since the urgent care center was set up. The average monthly visits decreased by 20% in the three months following the initiative. The number dropped from 230 visits per 1K to 185 visits per 1K.

Given the success of the initial mailing, below yearly mailings have been scheduled moving forward.

New Provider Postcard

- **Goal:** Introduce EHWC providers and reinforce benefits and services

- Highlight key differentiators (affordability, ease and confidentiality)

- Include strong call to action with clear contact information

- Introductory tone establishes relationship and provider credibility
YES! COUNT ME IN.  
This year, I’m getting a flu vaccine!

This year’s more-effective vaccine protects against last year’s difficult flu strain. You don’t want to miss getting your FREE flu shot!

Now is the perfect time to get your FREE flu shot at the Employee Health and Wellness Center. Not only does getting a flu shot protect you against the flu virus—it protects the health of those very important people who count on you to stay healthy, including family, friends, co-workers, and residents. Taking the time to get your flu shot demonstrates teamwork and kindness, especially in your Erickson Living® community.

Show us that we can count on you!
Visit the Employee Health and Wellness Center today for your free flu shot.
YES! Count Me In!  

**September 2015**

*Can we count on you to get your flu shot?* The Centers for Disease Control (CDC) recommends that people get vaccinated against flu soon after the vaccine becomes available. Since it takes about two weeks to develop antibodies, and flu season can begin in October, now is a great time to get your flu shot. It's quick, easy, and **free** at your Employee Health & Wellness Center (EHWC).

---

**Yes! Count me in.**

This year I'm getting a flu vaccine!

---

Flu Shot Facts

- The CDC recommends a yearly flu vaccine for everyone 6 months of age and older.
- Most seasonal flu activity occurs between October and May, peaking between December and February. While the CDC recommends getting your flu shot by October, as long as flu viruses are circulating, it's not too late to get vaccinated.
- Getting your flu shot protects not only you, but also your family, friends, coworkers, and residents.

---

**Tip from Dr. Craig:**

Your Employee Health & Wellness Center (EHWC) offers **FREE** flu shots (while supplies last). If you prefer, you may see your personal health care provider. For questions about the flu shot, talk with your EHWC or personal health care provider.

---

*For more information on the flu shot, visit [www.cdc.gov/flu](http://www.cdc.gov/flu) and talk with your healthcare professional.*
2015
HEALTHY WOMAN
of the YEAR

is hereby recognized for being a healthy inspiration to her co-workers. Your actions and efforts are helping people live better lives. Congratulations!

Employee Health and Wellness Provider

Executive Director
Health Matters

Benefit of the Month

Don’t Be Scared!

Fear keeps many people from getting regular cancer screenings. But the fact is, early detection could save your life. Don’t let the fear of bad news – or the fear of medical tests themselves – stop you from getting the screenings you need. Take a friend with you, or talk with your healthcare provider or a Health Advocate counselor (1-866-799-2728) about your concerns. Remember, if caught early, cancer might be more afraid of you than you are of it!

Preventive services, including age-appropriate cancer screenings, are covered 100% in all of our medical plans!

Defeat the Cancer Monster!

While not all cancer is preventable, taking these steps can help you avoid it:

- Don’t use tobacco in any form.
- Maintain a healthy weight.
- Get regular physical activity.
- Eat more fruits and veggies, less red meat.
- If you drink alcoholic beverages, limit your intake.
- Use sunblock and cover your skin in the sun (and NO TANNING BEDS!)
- Know yourself, your family history, and your risks.
- BE PROACTIVE – Have regular checkups and cancer screening tests.

Tip from Dr. Craig:

Treat yourself to good health! Schedule your annual physical and cancer screenings EVERY YEAR around your birthday.

A fresh start.
A new beginning.

WeightWatchers® is coming for all employees.

January 2015

For more information, contact your Human Resources Department.
A fresh start.
A new beginning.

WeightWatchers® is coming for all employees

January 2015

For more information, contact your Human Resources Department.
The Weight Watchers open enrollment period is January 1 – January 30. Don’t miss out!

There are just three simple steps to enroll and get started.

1. Log On:
You can enroll by going to https://wellness.weightwatchers.com.
Employer ID = 10612993
Employer Passcode = ww10612993.
You’ll need your work address and, if you are already a Weight Watchers member, your WW username and password.

2. Sign Up:
Select your At-Work meeting location.
Enter information about you.
If you are in an Erickson Living® health plan, select “member,” then you can apply your $240/year Wellness Fund to the fees, use payroll deduction for your payments, and be eligible for a refund after 12 months of participation.
If you do not have Erickson Living health insurance, select “employee,” then enter your payment information.
Print a temporary monthly pass.

3. Get Started:
Attend meetings or start your program online.
Before your At-Work meetings begin (and even after), you may attend meetings in your local community. Visit www.weightwatchers.com for meeting locations and times.

Need help enrolling? Contact your Employee Health and Wellness Center or Human Resources department.

WEIGHT WATCHERS is the registered trademark of Weight Watchers International, Inc. All rights reserved.
Ready. Set. Summer!

The days are getting longer—and warmer. It's the perfect time to sign up for Weight Watchers. It's not too late! Enrollment is still open. Your co-workers have already lost thousands of pounds. Join us and welcome summer with a smile!

We Now Have Ongoing Enrollment

Sign up today. Visit wellness.weightwatchers.com and enter this special information: Employer ID: 10612993, Employer Passcode: ww10612993.

You'll also need to provide your work address and, if you are already a Weight Watchers member, your username and password.

Need Help Enrolling?

Contact the Human Resources department today!
Our Culture of Safety...
Safe Behaviors = Desired Culture

- Over 90% of all workplace injuries are a direct result of an unsafe behavior, versus an unsafe work environment.

- Consequently, our focus is on behaviors—not injuries.

Desired Culture
Secure your safety
with the lock-out technique!

To prevent the release of hazardous energy, place a padlock on the device that is in the off or closed position.

Lock-Out Procedure:
2. Identify all hazardous energy sources.
3. Shut down the machine.
4. Isolate or neutralize all hazardous energy sources.
5. Lock out energy sources. Neutralize and secure residual and stored energy.
6. Verify that you’ve completed all lock-out steps correctly!

Weekly Injury Report

Updates for Community X–

**New:**
- Patient A Dining (CB 1) 2/10/2016 cut he was cutting down a box and cut his left finger on the knife, did follow up with EHWC and was treated and had a follow up but has remained full duty.
- Patient B HS 2/8/2016 ?strain wrist did not report to security she was working with two residents and started to feel pain in her left wrist - this was the same wrist she had injured last year when she was kicked by a resident. She did follow up with EHWC but the pain in her left wrist was not related to an injury but a medical issue. She was referred to Ortho for follow up – she remains full duty.
- Patient C Dining (CB 1) 2/5/2016 Burn did not report to security he was changing the fryer oil when he splashed some oil in his eyes. They used the SDS manual and followed the directions and he returned to work full duty.

**Updates:**
Patient D Dining (GR) 1/20/2016 Struck by(fx toe) Security called and call center called she was carrying a container full of coke and it slipped from her hands landing against her left knee and foot. She was noted to be limping by the supervisor who told her to call Security. She came to EHWC and was sent to Concentra and then returned to light duty of sedentary work. This will be accommodated by her department. UPDATE 1/25/2016 employee did follow up with Concentra and remains on sedentary work. She remains in her department. Follow up 2/1/2016. UPDATE 2/6/2016 employee did follow up with Concentra and remains on sedentary work in her department. **UPDATE 2/11/2016 employee did follow up with Concentra and remains on sedentary work in her department.**

When the weather turns cold and icy.....

Practice the winter waddle!

To avoid slipping and falling on icy pavement, walk like the penguins do:
- Walk flat-footed
- Point your feet out slightly
- Take short steps or shuffle for stability
- Stand up straight and keep your head up—don’t lean forward
- Keep your arms at your sides, not in your pockets to maintain balance
- Watch where you are stepping and go S-L-O-W-L-Y!
- Report unsafe conditions (such as patches of ice in the parking lot) to security immediately.

Safety begins with you

Follow these tips and enjoy a wonderful winter season! For more information, visit the Safety Risk Management site on ELink.

The Erickson Living® Safety Football Challenge Is On!

Grab your safety gear (non-slip resistant shoes and cut gloves) and join us on the field for an 8-week competition.

Here’s how it works:

When you complete a safe work action, you’ll receive a “Caught You” card from your manager. If you complete an unsafe action, you’ll get a “Coach You” card instead. At the end of the season, we’ll count up your cards for a final tally.

**Scoring:**

- Each “Caught You” or “Coach You” card equals a 3-point field goal added to your score. The following bonus points are also available:
  - Snap a picture of a safe action for a 2-point safety.
  - Hold a safety training session or event and earn a 6-point touchdown.
  - Turn in a score sheet every week of the season and earn 50 points!

**Rules:**

- Contest begins October 12 and ends December 4.
- Players include all community Dining Services employees.
- Each week, cards, pictures, and safety event documentation should be sent to Corporate Risk Management at roderick.reid@erickson.com.
- Weekly stats will be posted at each community and on the Risk Management page on ELink.
- Communities are encouraged to display and share weekly results and standings with their employees.
- All incidents must be reported as per policy. Failure to report any incident will lead to automatic disqualification and disciplinary action.

Our Next Steps...
2016 EHWC Goals

- Financial Performance
  - Achieve Increase in Elective Use by 5% Compared to Same Time from Previous Year. (Visits include Sick Visits and Follow Up, Health IQs, Well Visits, Flu Vaccines, and Smoking Cessation).
  - Achieve Average Incurred Cost per WComp Incident At/Below Internal Benchmark.
- Customer Service
  - Achieve High Scores and Positive Feedback.
- Management Practices
  - Audit At Least 10 New Hire Charts Per Month. Report Results and Follow Up Actions to HRD to Recall Employees and Resolve Missing Information. Complete Monthly Spreadsheet to Be Included With Productivity Report.
  - Audit at Least 10 Existing Employee Charts Per Month for Employees with Regulatory Requirements for Vaccines and TB Screening Requirements. Report Results and Follow Up Actions to HRD to Recall Employees and Resolve Missing Information. Complete Monthly Spreadsheet to Be Included With Productivity Report.
  - Build Partnership with Workers’ Compensation Adjuster and Senior Occupational Health Nurse Including Monthly Discussion of all Open Cases to Facilitate Closure Plans.
• Management Practices – cont’d
  – Maintain or Achieve Overall and CC-Specific Employee Flu Vaccine Rates of 60% or More or a 5% Increase in Overall and CC-Specific Rates from Prior Year. If Community Already Has Overall and CC-Specific Rates of 60% or More, Prevent Declines of 5% or More.

• Well-Being Engagement
  – Serve as Primary Champion of Weight Watchers And Achieve Minimal Goal of 15 Active Enrollees Per Site.
  – Achieve Increases in Referrals to Chronic Care Solutions
  – In Collaboration with HR, Plan for At Least 2 Brief Departmental Meeting Presentations Related to at Least 2 of the These Categories of Well-Being: Financial, Personal and Career Growth, or Social Well-Being.
  – Providers to Set Their Own Personal Well-Being Goal (e.g. Dr. Craig plans to do a yoga class 2 times each week).

• Employee Engagement
  – Demonstrate Growth For Your Medical Assistant in Either Their Educational Development or Influence in the Community.
2016 Health Plan Goals

- Optimize vendor partner relationship, monitoring and evaluation.

- Achieve multi-year pharmacy benefit plan including affordability, adherence and other pharmacy management plans (e.g. step therapy).

- Consider plan re-design to further incentivize wellness engagement.

- Drive participation in chronic care solutions.
Annual Safety Plan Review and 2016 Goals

- 2016 evaluation of results to focus on our communities with the most opportunities to prevent injuries
  - Onsite community consultations to create action plans including management goals
  - Monitor injury frequency and incurred costs and adjust plans as needed

- Continued focus on safety culture development
  - Initiatives, safety topics of month, global/local training
  - Special initiatives such as safety baseball, football, etc.
  - Safety challenges and sharing best practices

- Post-Offer Employment Testing (POET)

• 52 y.o. female housekeeper for BP check. NP noticed asymmetric lip & favoring left side. She cried & said her face was numb. 911 call & received ‘TPA’ therapy in ER, avoiding a stroke. “God bless you, you saved my life”

• 46 y.o. male general services worker with cold. Heart exam revealed loud murmur. Cardiologist visit revealed leaky heart valve but normal heart function. Valve repair done with good outcome & back to work. “The Cardiologist told me you found it before it damaged my heart”

• 48 y.o. female laundry worker for BP medication. BP dangerously high at 210/113. Clearly depressed due to loss of daughter in last year (leaving her with 2 children) & loss of mother 1 month ago. EAP referral, then counseling. 2 weeks later, BP normalizing, in therapy & wants to quit smoking in new year. “You really care about me”
Customer Satisfaction Results

- Scheduling
- Hours Convenient
- Minimal Waiting
- Paperwork
- Welcoming and Caring
- Provider Knowledgeable
- My needs were met
- Cleanliness

National Benchmark for Private Practice
“Coming together is a beginning; keeping together is progress; working together is success.”

Henry Ford, Founder of the Ford motor company and developer of the assembly line technique of mass production.
