AMY J. BEHRMAN, MD, FACOEM, FACP

Dr. Behrman is medical director for occupational medicine services and a professor in the University of Pennsylvania's Perelman School of Medicine. Her practice and academic interests focus on occupational infections, nosocomial infection prevention, vaccine preventable diseases, and adult immunizations. She has key roles in ongoing COVID-19 preparedness and management for Penn Medicine and the University of Pennsylvania where her practice serves a wide range of health care personnel, researchers, and veterinary staff. She is board certified in internal medicine and has held leadership positions for many years in ACOEM's Medical Center Occupational Health Section.

GEORGE W. MOORE, MD, MSC, MRO, FACOEM

Dr. Moore is assistant professor for the University of Connecticut Health Center and the Director of Employee Health and Occupational Medicine. He is board certified in occupational medicine, a Medical Review Officer and is a fellow of both ACOEM and the American College of Preventive Medicine.

JOHN S. ANDREWS, MD

Dr. Andrews completed his residency and chief residency in pediatrics at University of Wisconsin Hospital & Clinics and fellowship in academic general pediatrics at Johns Hopkins in Baltimore, Md. Following his fellowship, he remained on the faculty at Johns Hopkins where he served as director of medical student education in pediatrics. In 2000, Dr. Andrews moved to Auckland, New Zealand where he worked as a consultant general paediatrician at Starship Children's Hospital. He was also a member of Te Puaruru hau, the Auckland District Health Board service for children and young people who have experienced abuse or neglect. In 2004, he returned to the United States to direct graduate medical education at Children's Hospitals & Clinics of Minnesota. From 2006-2012, he served as pediatric residency program director at the University of Minnesota, and from 2012-2018, he was associate dean for graduate medical education there. In July 2018, Dr. Andrews joined the American Medical Association as its Vice President for Graduate Medical Education Innovations.

GREGORY A. POLAND, MD, MACP, FIDSA, FRCP(LONDON)

Dr. Poland is the director of Mayo Clinic's Vaccine Research Group and professor in medicine and infectious diseases and molecular pharmacology and experimental therapeutics at Mayo Clinic. He also serves as the president of the Edward Jenner Vaccine Society and is the Editor-in-Chief for the journal *Vaccine*. Dr. Poland has chaired or been a member of every Federal committee involved in vaccine decision-making, including the NVAC, VRBAC, and the ACIP. He advocated for and successfully persuaded the Centers for Disease Control and Prevention (CDC) to recommend annual influenza vaccine for all Americans age 6 months and older and was the initial and primary advocate for requiring influenza immunization for all health care providers. In 2012, Dr. Poland was named in the top 25 list of vaccine influencers in the world. Dr. Poland served on the Infectious Diseases Society of America (IDSA) Taskforce on Pandemic Influenza, and currently chairs the American College of Physician's Adult Immunization Advisory Board. He is the immediate past president of the Department of Defense's Defense Health Board and the Armed Forces Epidemiological Board.

ROBERT K. MCLELLAN, MD, MPH, FACOEM, FAFP

Dr. McLellan is the principal of a consulting company, RKMD Consulting, which provides occupational and environmental health policy and practice consulting services. Previously, he was chief, Section of Occupational and Environmental Medicine of Dartmouth-Hitchcock for 15 years where he led efforts to protect and promote the health, safety, and well-being of health care workers. He is currently an active emeritus professor of medicine, community and family medicine, at the Dartmouth Institute of Health Policy and of Clinical Practice at Geisel School of Medicine, Dartmouth, N.H. He is a past president of ACOEM and the New England College of Occupational and Environmental Medicine.

GAURAVA AGARWAL, MD

Dr. Agarwal is associate professor in both the departments of medical education and psychiatry and behavioral sciences at Northwestern University's Feinberg School of Medicine in Chicago, Ill. He serves as the director of physician well-being for Northwestern Medical Group and director of medical student education in psychiatry at Northwestern's Feinberg School of Medicine. He specializes in occupational and organizational psychiatry with an emphasis on workplace mental health. Dr. Agarwal is a nationally recognized educator and serves as a wellness consultant to multiple national research groups and is a certified leadership, organizational, and well-being coach. He currently serves as the chair of ACOEM's Behavioral Health Section, vice president of the Academy of Organizational and Occupational Psychiatry and is a member of the American Hospital Association's Committee on Clinical Leadership. Dr. Agarwal is also the chair of the Well-Being and Professional Development Committee for the American College of Physicians Northern Illinois chapter and is on the Advisory Council of the Center for Workplace Mental Health.

LAURA BREEHER, MD, MS, MPH, FACOEM

Dr. Breeher has been a member of the Mayo Clinic staff since 2013. Currently, she serves as a consultant in the division of preventive, occupational, and aerospace medicine, and is the medical director for employee occupational health services as well as the section chief for the occupational medicine clinical practice at Mayo Clinic in Rochester, Minn. She is the chair of Mayo Clinic Rochester's Safe Patient Handling Committee as well as the Bloodborne Pathogen Exposure Reduction Subcommittee. Dr. Breeher leads the Minnesota RETAIN program to assist the workforce in staying at work and returning to work after illness and injury. Most recently, she has been engrossed in efforts to protect health care workers during the COVID-19 pandemic including collaborating to develop a multidisciplinary contact tracing process for a large health care workforce.

MODERATOR AND FACULTY:

KATHRYN L. MUELLER, MD, MPH, FACOEM

Dr. Mueller is a professor at the Colorado School of Public Health, former medical director for the Division of Workers' Compensation in Colorado. She is a past president of ACOEM. Her research interests are in developing evidence-based guidelines for work-related musculoskeletal disorders and in disability assessment. Dr. Mueller served as one of the six section editors for the American Medical Association's *Guides to the Evaluation of Permanent Impairment*, 6th edition, and has published research in such areas as impairment ratings, use of practice guidelines, and interstate variation of practice in workers' compensation.

PHILIP HARBER, MD, MPH, FACOEM, FCCP, ATSF

Dr. Harber is professor of public health, University of Arizona's Mel and Enid Zuckerman College of Public Health. He previously was professor of medicine and family medicine at David Geffen School of Medicine, UCLA, chief of the division of occupational-environmental medicine, and director of the occupational-environmental medicine residency. He has served as president of the Western Occupational and Environmental Medicine Association, chair of the NIOSH/CDC Study Section (IRG), vice chair of the Accreditation Council for Graduate Medical Education for preventive medicine, a member of ACOEM's Board of Directors, and on several IOM committees. His clinical and consulting expertise includes occupational respiratory diseases, occupational toxicology, and occupational data science.

KATHERINE KELLY, PE

Ms. Kelly joined Walt Disney World 17 years ago and her career has included assignments at Walt Disney World and the Disneyland Resort as well as multiple global assignments assisting with engineering design and safety process enhancements. She holds a Bachelor of Science in mechanical engineering, a Master of Science in Engineering Management and is a licensed mechanical engineer in Florida and California. Most recently, Katie held executive leadership responsibility for the DPEP domestic reliability teams and engineering services teams at Star Wars: Galaxy's Edge. Katie's experience includes leading a variety of teams such as engineering services for Disney's California Adventure, opening team for Pixar Pier, Worldwide Safety Assurance, and Design and Engineering. In May 2020, Katie was promoted to vice president, Worldwide Safety Services. In this role she leads the development and implementation of all safety strategies for DPEP as well as the Executive Safety & Health Council.

MIKE VAN DYKE, PHD, CIH

Dr. Van Dyke is a certified industrial hygienist, researcher, public health practitioner, and educator. He is an associate professor in the department of environmental and occupational health and the Center for Work, Health and Environment at the Colorado School of Public Health. Dr. Van Dyke is recognized for his contributions related to exposure assessment, occupational beryllium exposure, first responder exposures in clandestine methamphetamine laboratories, indoor air quality, public health aspects of legalized marijuana, and community exposures related to oil and gas extraction. Dr. Van Dyke is also an expert in evidence-based decision-making and risk communication.

HUNG K. CHEUNG, MD, MPH, FACOEM

Dr. Cheung is founder and president of Cogency, faculty member at the University of Pennsylvania, Perelman School of Medicine, and the former Maryland State Medical Director. He has led hundreds of environmental and toxicological investigations and is nationally recognized as an expert in respiratory environmental medicine, plant and indoor environmental quality, risk communication and medical advisory services. Dr. Cheung is board certified in both internal medicine and preventive medicine. He is in demand as a lecturer in prevention and remediation, as a scientific expert in legal and administrative proceedings, and has provided expert technical testimony to legislatures. Such activities include serving with the Maryland Governor’s Task Force on Indoor Air Quality, the Baltimore City Healthy Homes Advisory Board and completing a major epidemiological investigational study for the Department of Defense.

MASON D. HARRELL III, MD, MPH, FACOEM

Dr. Mason Harrell is co-founder and chief medical officer of Sequoia Port Inc., an online software system designed for doctors that enhances the medical record review process by having one place where records are uploaded, organized, and analyzed. Saving time and energy and increasing work quality motivates Dr. Harrell. He is the chair of ACOEM’s Health Informatics Section and volunteers in many other capacities for ACOEM and WOEMA. He recently pivoted from being Active Duty Navy and co-founded the non-profit “I Define” to fund clinical trials to discover real treatments and a cure for children with intellectual disability, their first clinical trial starting next month. He is a consultant for a variety of organizations providing occupational medicine services in addition to his biggest professional passion: Sequoia Port Inc.

ROBERT J. HARRISON, MD, MPH

Dr. Harrison is board certified in internal medicine and in occupational medicine and is clinical professor, division of occupational and environmental medicine, at the University of California in San Francisco. He founded and has directed UCSF’s occupational health services for more than 15 years and is now senior attending physician. He has diagnosed and treated more than 10,000 patients with work- and environmental-induced diseases and injuries. He also directs the worker tracking investigation program for the California Department of Public Health. Dr. Harrison has also served on the California Occupational Safety and Health Administration (Cal/OSHA) Standards Board.

WILLIAM NIEHAUS, MD

Dr. Niehaus is associate program director, CU Physical Medicine and Rehabilitation Residency, outpatient medical director of physical medicine and rehabilitation – Anschutz Medical Campus, University of Colorado School of Medicine, department of physical medicine and rehabilitation, Denver. He is board certified in physical medicine and rehabilitation. Dr. Niehaus specializes in stroke, trauma/nerve injuries, traumatic and acquired brain injuries, spine diseases and conditions, and rehabilitation therapy. His focus is on neurorehabilitation and working with patients who have suffered a spinal cord injury, traumatic brain injury, or stroke. He is president of the Colorado Rehabilitation Services Volunteer Partnership (Colorado RSVP).

TUCKER O'DAY, MSPT, MS, HEM

Ms. O'Day is the employee injury risk manager in environmental health and safety at Boston Children's Hospital since 2018. She has worked in the field of occupational health and ergonomics for over 20 years, including establishing and managing the Occupational Health Ergonomics Program for Partners HealthCare which served 60,000+ employees in Greater Boston. Tucker holds a Master of Science in Physical Therapy and a Master of Science in Occupational Ergonomics and Safety. She maintains her physical therapy license and has obtained her LEAN Six Sigma Green Belt for Healthcare and her Healthcare Environmental Manager (HEM) certification. She also is a guest lecturer in the department of public health at the University of MA – Lowell and is a member of the Massachusetts Department of

Public Health Safe Patient Handling Stakeholder Workgroup.

NICOLE CHAN, JD

Ms. Chan is an in-house attorney for Pinnacol Assurance. At Pinnacol, she advises on all matters related to COVID-19, which include compensability decisions, internal policies regarding claims procedures, and policy holder inquiries. Prior to working at Pinnacol, Nicole was in-house counsel at a national insurance carrier for many years in both California and Colorado. Her primary practice for 14 years has been in insurance defense civil and in workers' compensation matters. Nicole presently practices as a licensed attorney in

Colorado, but also maintains her license in California.

Sunday, September 13, 2020

**MODERATOR:
RUPALI DAS, MD, MPH, FACOEM**

Western Occupational and Environmental Medical Association and serves on committees of the California Workers' Compensation Institute and Workers' Compensation Insurance Rating Board. She is board certified in internal medicine and preventive medicine and occupational medicine.

MIKE VAN DYKE, PHD, CIH

Dr. Van Dyke is a certified industrial hygienist, researcher, public health practitioner, and educator. He is an associate professor in the department of environmental and occupational health and the Center for Work, Health and Environment at the Colorado School of Public Health. Dr. Van Dyke is recognized for his contributions related to exposure assessment, occupational beryllium exposure, first responder exposures in clandestine methamphetamine laboratories, indoor air quality, public health aspects of legalized marijuana, and community exposures related to oil and gas extraction. Dr. Van

Dyke is also an expert in evidence-based decision-making and risk communication.

RAJIV DAS, MD, MPH, MS, MRO, FACOEM

Dr. Das is medical director for Safeway, Inc., Vons and Albertsons Stores nationwide (300+ facilities/90,000+ employees). In this role, he manages medical providers, overseeing treatment and utilization review (UR) issues. He has provided direct patient care for over 15 years as well as performed UR for over 10 years. He also served as a QME. Dr. Das is medical director for Benioff UCSF Children's Hospital Oakland Employee Health Services. He is on the board of the Western Occupational and Environmental Medical Association and is board certified in occupational medicine, physical medicine, and rehabilitation and pain medicine.

AMY J. BEHRMAN, MD, FACOEM, FACP

Dr. Behrman is medical director for occupational medicine services and a professor in the University of Pennsylvania's Perelman School of Medicine. Her practice and academic interests focus on occupational infections, nosocomial infection prevention, vaccine preventable diseases, and adult immunizations. She has key roles in ongoing COVID-19 preparedness and management for Penn Medicine and the University of Pennsylvania where her practice serves a wide range of health care personnel, researchers, and veterinary staff. She is board certified in internal medicine and has held leadership positions for many years in ACOEM's Medical Center Occupational Health Section.

MODERATOR AND FACULTY:

TANISHA K. TAYLOR, MD, MPH, MBA, CIME, FACP, FACOEM

Dr. Taylor is chief medical director for RWJBH Corporate Care in New Jersey where she has been instrumental in improving outcomes for workers' compensation clients for both her organization as well as for clients and oversees employee health services. She is clinical assistant professor in the department of environmental and occupational health at Rutgers School of Public Health. Dr. Taylor has served on ACOEM's Board of Directors and is currently ACOEM Treasurer. She is board certified in occupational medicine and internal medicine and is also a Medical Review Officer and listed on the FMCSA National Registry of Certified Medical Examiners.

NATALIE P. HARTENBAUM, MD, MPH, FACOEM

Dr. Hartenbaum is President and Chief Medical Officer of OccuMedix, Inc, an occupational medicine consulting firm located in Dresher, PA. Through OccuMedix, she serves as Medical Director/Advisor to numerous companies including the Federal Reserve Bank of Philadelphia and Energy Transfer Partners. Dr. Hartenbaum is on both the clinical and teaching faculty of the University of Pennsylvania. She is the editor of *The DOT Medical Examination: A Guide to Commercial Driver Medical Certification*, now in its seventh edition and *CDME Review*, a quarterly newsletter for commercial driver medical examiners. She has published and lectured nationally on various issues of fitness evaluations in the workplace

and is the course director for ACOEM's National Registry of Certified Medical Examiner training program. Dr. Hartenbaum is a Past-President of ACOEM and a former member of the Board of Trustees of the American Board of Preventive Medicine. She is board certified in internal medicine and occupational medicine. She has extensive experience in the clinical, corporate, and academic settings and is a nationally recognized expert in occupational fitness for duty with a special focus on transportation.

ERIC A. SCHAUB, MD, MPH, FACOEM

Dr. Schaub is the medical director of Seafarers Health and Benefits Plan, a joint union-management trust focused on the maritime sector. He is responsible for overseeing the medical fitness of mariners working on U.S. flagged vessels serving throughout the world. Dr. Schaub serves as a member of the U.S. Coast Guard Merchant Mariner Medical Advisory Committee (MEDMAC). He is board certified in both internal medicine and occupational medicine and has more than 25 years of experience in consulting, academic and clinical

occupational medicine.

EDWARD I. GALAID, MD, MPH, FACOEM

Dr. Galaid is medical director for occupational medicine at Roper St. Francis Healthcare in North Charleston, S.C. He is formerly an epidemiologist with the Centers for Disease Control and Prevention (CDC) and the New York City Department of Health. Dr. Galaid is a member of the task force developing ACOEM's Guidance for the Medical Evaluation of Law Enforcement Officers and has authored the chapter on infectious diseases. He is also a member of the NFPA 1582 task group. An FMCSA-certified medical examiner, he is also board certified in occupational medicine and public health and general preventive medicine, and in internal medicine.

BRENT R. GIBSON, MD, MPH, CAE, FACPM, CCHP-P

Dr. Gibson, board certified in occupational medicine, is chief health officer for the National Commission on Correctional Health Care (NCCHC). Dr. Gibson works closely with thought leaders, clinicians, and elected officials to facilitate education, training, and technical assistance as they develop local solutions for providing quality health care to incarcerated persons with specific needs. Specific examples of his recent work include a novel NCCHC standard for the protection of the health of inmate workers, significant enhancements to the standard on clinical preventive services in jails and prisons, lead for the National Response Plan for Suicide Prevention in Corrections and a new partnership with the

American Foundation for Suicide Prevention. Dr. Gibson is also the managing director for the affiliated not-for-profit consulting firm NCCHC Resources, Inc. He formally served as the clinical director for the United States Medical Center for Federal Prisoners and as an occupational medicine specialist for the United States Army.
